

Lokesh Vakacharla

STUDENT

Motivated Computer Science student with hands-on experience in full stack development and a strong foundation in Java, JavaScript, HTML, and CSS. Passionate about building scalable web applications and solving complex problems using agile methodologies. Proven ability to quickly adapt, collaborate effectively, and deliver quality solutions. Seeking internship opportunities to apply my technical skills and further develop expertise in software development.

EDUCATION

B.Tech CSE IOT and Cybersecurity Including Blockchain Technology

Amity University Noida

09/2022 - Present

9.25 CGPA

High School

Shanti Gyan International School

04/2020 - 03/2022

92.6 CBSE BOARD

PROJECTS

News Summariser (02/2025 - Present)

- <https://github.com/Vakacharla-Lokesh/News-Summariser>.
- Developed a web application using Python and Streamlit for efficient news summarization.
- Applied web scraping techniques with BeautifulSoup to extract news articles from various sources.
- Utilized NLP libraries, including Newspaper3k, to generate concise summaries of lengthy news articles.

Game Hub (07/2024 - 10/2024)

- <https://github.com/Vakacharla-Lokesh/game-hub-server>.
- Developed a centralized online platform to consolidate favorite games into one accessible location.
- Integrated a chatbot assistant to provide real-time user support.
- Focused on a scalable and efficient backend design.

Notepad (05/2024 - 07/2024)

- <https://github.com/Vakacharla-Lokesh/Notepad>.
- Developed a fully functional text editor using Java and AWT with features such as file operations, text formatting, and multi-document handling.
- Implemented undo/redo functionality and customizable themes for enhanced user experience.
- Focused on creating an intuitive and responsive graphical user interface.

Snake Game (07/2023 - 09/2023)

- https://github.com/Vakacharla-Lokesh/snake_game.git.
- Built a replica of the classic snake game using turtle graphics.
- Implemented core game mechanics including snake movement, collision detection, and dynamic scoring.
- Designed a user-friendly interface to enhance player engagement.

SKILLS

JAVA

CSS

HTML

GIT

JavaScript

PROBLEM SOLVING

React.js

Node.js

ACHIEVEMENTS

Ranked 1st in DSA Diaries 2025 (12/2025 - Present)

Demonstrated advanced proficiency in data structures and algorithms during a competitive coding event.

Ranked 3rd in NETFLIX-CODE HEIST (09/2024 - Present)

Excelled in a coding contest that challenged participants to solve problems under time constraints.

Solved 700+ LeetCode DSA problems demonstrating strong problem-solving skills, algorithmic thinking, and proficiency in data structures and algorithms.

CERTIFICATES

Introduction to Networks (02/2025 - Present)

Achieved Cisco CCNAv7: Introduction to Networks certification, demonstrating technical competence in network infrastructure, IP addressing, device configuration, and security protocols.

Introduction to Internet of Things by NPTEL (10/2024 - Present)

Exploring the fundamentals of IoT, including device connectivity, data management, and application development, preparing for innovative solutions in smart technology.

Introduction to Cybersecurity (10/2023 - Present)

Gained proficiency in threat landscapes, risk management, and security protocols, equipping me with the knowledge to identify vulnerabilities and implement effective security measures.

Git From Basics To Advanced : A Practical Guide For Developers (03/2023 - Present)

Gaining expertise in version control and collaborative software development. Developed a strong command of Git commands, branching strategies, and merging techniques.

The Complete C Programming Course - From Scratch (02/2023 - Present)

Completed an intensive online C programming course, mastering foundational principles and practical applications. Proficient in writing efficient, structured C code with a focus on algorithmic problem-solving and data structures.
